

RS-02 PLUS mini-pabx

- *Non-Volatile EEPROM Back-up of Programming Data*
- *Flexible IDD Control with Password Security*
- *Automatic Phone/Fax Switching*
- *DISA with Voice Message*

RS-02 PLUS *mini-pabx*

DISTINCTIVE FEATURES

• **DISA with Voice Message**

RS-02 PLUS can answer an incoming call with a pre-recorded message asking the caller to enter the extension number or wait for the operator.

• **Day/Night Mode Voice Message**

Different voice message can be switched for Day and Night mode.

• **Flexible IDD & LDD Control**

Destinations of IDD/LDD call can be limited by locking the area code. User can only access the pre-set area code.

• **IDD & LDD Password Control**

User can prevent unauthorised IDD, LDD & local outgoing call by Password Control.

• **Automatic Phone/Fax Switch**

The system will detect the fax call from incoming call and switch to fax machine.

• **EEPROM Backup of Programming Data**

All the Programming data will be saved automatically to EEPROM. The data will not be lost even the AC power and memory backup battery are in failure.

SPECIFICATIONS

Capacity	:	Up to 4 Trunks and 16 Extensions
Switching	:	Space Division Cross Point Switch
Dialing method	:	Pulse and/or DTMF
Transmission Loss	:	1 dB
Environment	:	0 °C - 40 °C, 10% - 90% Humidity
Dimensions	:	80mm(D) x 490mm (H) x 310mm (W)
Weight	:	9 Kg

DISTRIBUTOR

Features and specifications are subject to change without notice.

MAJOR FEATURE SUMMARY

- 100 SMDR Records
- 100 Speed Dialing Memories
- Automatic Call Back
- Automatic Phone/Fax Detection
- Battery Back-up Power Supply (optional)
- Built-in Surge Arrestor
- Busy Lamp Field (optional)
- Busy Override
- Busy Redial
- Call Forwarding
- Call Forwarding to Trunk
- Call Hold
- Call Park
- Call Pick Up
- Call Splitting
- Call Transfer
- Call Waiting
- Conference
- Day/Night Mode Voice Message
- Direct Line
- DISA with Voice Message
- Distinctive Dial Tone
- Distinctive Ringing
- Do Not Disturb
- Door Lock Operation
- Door Phone (optional)
- EEPROM Backup of Programming Data
- External Music Input
- Facsimile Connection
- Flexible IDD & LDD Control
- Flexible Incoming Call Assignment
- Flexible Phone Digit Printout on SMDR
- Group Ringing for Incoming Call
- Hot Line to Extension
- Hot Line to Trunk
- Idle Line Preference
- IDD Password Control
- Intercom Call
- Last Number Redial
- Line Reversal Detection
- Music On Hold
- Paging
- Power Failure Transfer
- Printouts - Program Data
- Programmable Dialing Tone Time-out
- Programmable DTMF Dialing Timing
- Programmable Flash Time
- Programmable Interdigit Time-out
- Programmable Pulse Dialing Make/Break Ratio
- Pulse/DTMF Dialing
- Remote IDD
- Station Message Detailed Recording (SMDR)
- Specified Trunk Access
- Trunk to Trunk Transfer
- Universal Answer
